

ICVSS POSTER SESSION L^AT_EX POSTER TEMPLATE

Surname1 N1., Surname2 N2. - University
{Author1, Author2}@uni.edu

Call

The International Computer Vision Summer School is especially aimed to provide a stimulating space for young researchers and Ph.D. Students. They will have the possibility to present the results of their research on the topic of the school [1], and to interact with their scientific peers, in a friendly and constructive environment.

Abstract

Each poster should contain an abstract of max 500 characters. The abstract on the poster should exactly match the text that is submitted electronically [2].

Title

The paper title should be in ALL CAPITALS. The title must be representable in the Unicode character set.

Author

The authors' names must meet the following format: "Surname1 N1., Surname2 N2., Surname3 N3., ..." etc. The order of the authors on the poster should exactly match in number and order the authors typed into the online submission form.

Headerboxes

A poster is made of *headerboxes* in columns. See the L^AT_EX source of this poster for a brief explanation about how to set up a custom layout.

Best Presentation Prize

A selected subset from the submitted posters will be selected by the school committee for short oral presentation. A best presentation prize of 500€ (supported by Toshiba Research Europe) will be given to the best presentation selected by the school committee. Notification for oral presentation will be given by 20 July 2013 (same day of the presentation).

Scholarship

A scholarship of 500€ (grant offered by GIRPR) will be awarded to the best PhD student attending the school. The decision will be made by the School Committee at the time of the School, taking into account candidates' cv, poster and oral presentation. All PhD students attending the school will be considered for the ICVSS grant.

Poster

The poster should be written in English and should be sent (See Poster Submission section [2]) in a printable pdf format. For your poster, a board will be provided which measures 90 × 70 cm.

You need to print and bring with you the poster to the school. Push tacks or velcro adhesive will be provided at the conference to mount your poster to the board. Submission not satisfying the guidelines will be rejected [3].

Acknowledge

The author of the poster template is Brian Amberg [4]. The poster template was slightly modified by Eugenio Rustico to set ICVSS standard poster size.
